To Whom It May Concern:

This letter is in reference to Matt Bussell of Solution 2. Our company has known Matt for many years. He first came to us by word of mouth when we hired him to install our phone system. Matt was very professional and knowledgeable with several phone systems and was even supportive in doing some of the wiring for the system we chose which covered 3 buildings and 18 extensions. At the implementation of our new phone system, he also integrated our voice mail which our local phone company had never been able to do satisfactorily.

As our relationship with Matt grew, we asked him to set up a security system for this same company, consisting of 24 cameras and 4 major big screen monitors. The quality of the security and its set up is very satisfactory and was definitely a good design and scheme for our company.

In all, we are very satisfied with our phone, email and security system. We are very pleased with Matt Bussell and his ability to trouble shoot if necessary via phone or service call. We would highly recommend his services to anyone. If you should have questions or concerns, please feel free to contact me at 404-361-7799, extension 105.

Cordially,

Connie W. Viscarra
Office Manager
